This year's Financial Women's Association International Business Conference travels to Singapore and Hong Kong to meet with industry leaders in both government and finance. The conference topics include: Sovereign Credit Risk Across Asia, Technology and Transformation, Sustainable Finance, with additional topics to be covered before their return on Friday, March 18, 2016. This marvelous opportunity allows the Delegates to gain a fresh and thorough perspective into one of the world's most prosperous countries with robust international trading ties. View scenes from the trip.
