

FWA Members Recognized by Crain's as 2018 Notable Women in Finance

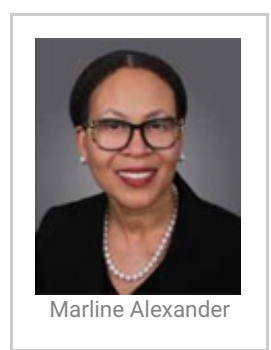

fwa.org/spotlight/6206/

FWA Members Karen Altfest and Marline Alexander were named by Crain's New York as Notable Women in Finance in their April 9, 2018 issue. Both women were recognized among 46 other leaders in financial services and were described as being part of "a talented group whose members are defined by more than their gender. They are remarkable first and foremost for their achievements and commitment to excellence in the financial industry."

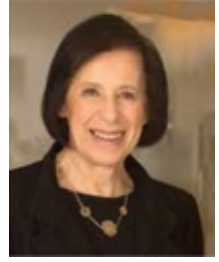

Karen has been a longtime member of the FWA and is the Principal adviser and executive vice president at Altfest Personal Wealth Management; and Marline has served as the Co-Chair of FWA's Wall Street Exchange Program for several years and is the First vice president, credit administration ABL at BHI USA.

Join us in congratulating our members for their well-deserved recognition!

Also featured in the article were employees from our President's Circle Sponsoring Firms. We applaud Bhuvana Jayaraman (BNY Mellon), Elizabeth Nieto (MetLife), Kristie Pellecchia (SMBC), and Diane Schumaker-Kreig (Wells Fargo Securities) for their accomplishments within the banking industry.

Marline Alexander

Karen C. Altfest
