The FWA is pleased to be partnering with BMO Capital Markets once again as a beneficiary of its Equity Through Education program.

Equity Through Education is a charitable initiative aimed at creating a more diverse workplace by offering support to help bright, deserving people realize their educational ambitions by giving them opportunities they might not otherwise have.

Since its inception in 2005, the BMO Capital Markets Equity Through Education program has raised \$17 million by each year donating one day's institutional trading commissions earned across North America directly to organizations that provide access to education. This translates into assistance to more than 4,500 students through scholarships, bursaries, mentoring programs and job search strategy forums.

This year's Equity Through Education trading day will be held on September 26, 2018. Please consider placing your trades with BMO Capital Markets on that day; it's one day of trading for a lifetime of opportunity.
